PORTRUSH PETROLEUM CORP ("PSH-V") - Richards #1-20 Well Achieves 4 Months Continuous Production

Portrush Petroleum Corporation is pleased to announce that the recently completed Richards #1-20 well in Lenox Township, Macomb County, Southeast Michigan has achieved 4 months of continuous production. The well was completed in the Brown Niagaran and had initial production rates of 190 Barrels of oil a day and 90 mcf of gas a day. The well is currently a flowing oil well and has averaged 150 Barrels of oil a day since start of production in January. Portrush holds a 22.5% working interest in the property and is evaluating, with its working interest partners, the possibility of additional drilling locations. M. Cotter, President
