Corporate Strategy

- Identify significant joint venture projects that can generate cash flow quickly with minimal risk and strong upside potential.
- Strong focus on putting dollars “in the ground” rather than into overhead.
- Cash flow positive.
- Oil & Gas revenue net of royalties forecast to increase significantly over 2007
- Multi-well deep drilling program in Texas Gulf Basin is underway.
- Southern Ontario prospects being reviewed.

Property Highlights

Mission River, Texas Gulf Basin

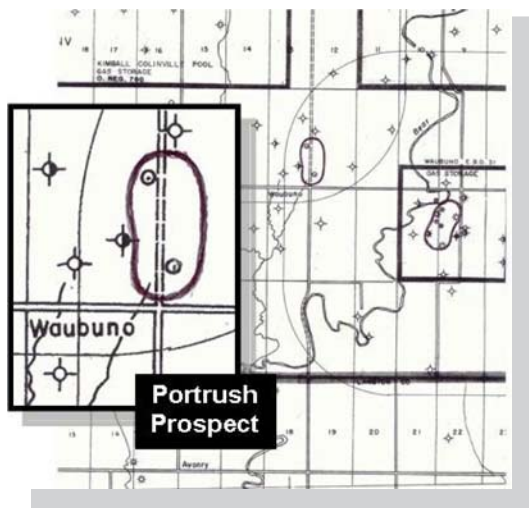

- Field has multiple pays at depths ranging from 2,000 to 10,300 feet.
- Significant daily production from the field of both gas and oil.
- Multi-well deep drilling program is currently underway.
- 3D Seismic completed on 640 acre tract.
- Completed wells can be placed on production without any delays

Michigan Lenox Project

- Pinnacle reef play in the New Haven area of SE Michigan.
- Michigan Basin occupies an area of approximately 122,000 sq. miles underlying SW Ontario and State of Michigan.
- 2 producing wells in Macomb County in which Portrush holds 22.5% interest.
- Continuous, stable income stream.

Southern Ontario Projects

- Portrush et al No. 1 - Moore 5-13-III is a Pinnacle Reef Prospect created by Hadley Resources Limited in the heart of Gas Storage Country, Moore Township, Lambton County, Southwestern Ontario.
- Considered a near miss of a Pinnacle Reef, the prospect is undergoing 3D seismic review; it is on trend and mid point between two pinnacle reef gas storage pools, Kimball Colvinville and Waubuno.
- Additional prospects are currently being reviewed in Southern Ontario with the assistance of Hadley Resources.

The following presentation may contain certain forward-looking statements within the meaning of the United States Securities Acts of 1933 and 1934 as amended regarding the investments and operations of Portrush Petroleum Corp. While these statements represent our current judgment on matters presented, they are subject to certain risks and uncertainties that could cause actual results to differ materially from those presented herein. In addition to the factors that will be discussed to some extent within this presentation, important factors relating to our acquisition strategies, revenues, product development, business and operations are described in our filings which are available on SEDAR and the SEC website, our corporate website or directly from the Company.
